## SKILLS

- **Front-end / UI:** JavaScript, React, Vue, HTML/CSS, Sass/SCSS, responsive design, Figma, usability testing
- **Back-end / Data:** Node.js, Express, RESTful APIs, MongoDB (Mongoose), MySQL (Sequelize), Python, Docker
- **Quality / Support Tools:** Git, Postman, RPA (n8n, Microsoft Power Automate), CI/CD, Google Analytics
- **Product / Management:** Roadmap, OKRs, PRD, NPD, user stories, backlog prioritization, release planning, MVP, Agile, stakeholder management, go-to-market, project management, budget and scope management

## EXPERIENCE

### CYTENA BPS Co., Ltd.

Taipei, Taiwan

#### Senior Software Engineer

Jan 2024 - Present

- Own software OKRs, roadmap, release planning and backlog prioritization to align with business goals.
- Define PRDs, write user stories and design Figma UI flows. Lead usability testing and deliver milestone features including DO/pH data processing pipeline, wireless camera data backup via Wi-Fi, and metabolic-assay functionality.
- Develop support automation and tooling to reduce tech-support effort and boost user self-service. Integrate a Python script-runner for camera checks, guided consumable calibration import, and VHP sterilization workflows.
- Establish software QC strategy and introduce integration, end-to-end tests, and performance checks. Coordinate cross-team system QA efforts, contributing to an ~30% reduction in software bug reports.

#### Software Engineer

Mar 2022 - Jan 2024

- Implemented desktop applications (Electron, React) for instrument control and real-time monitoring; integrated protobuf for robust firmware communication and persisted experiment logs.
- Built data pipelines and visualizations (ApexCharts, D3), and implemented PDF report export and email alerts (SendGrid, Microsoft Power Automate) to support experiment analysis and real-time notifications.
- Delivered PoC, prototype and MVP initiatives (DoE tools, high-frequency sensing modes, Wi-Fi camera backup, multi-device workstation); validated functionality and migrated multiple features into product builds.
- Performed log and root-cause analysis across hardware, firmware, and software to triage issues and route them to the appropriate team. Conducted demos and authored runbooks to reduce escalations and improve support turnaround.

### ACTi Corporation

Taipei, Taiwan

#### Assistant Manager at Solution Integration and Service Department

Oct 2020 - May 2021

- Led a team of 6 PMs and mentored junior members to raise team delivery capability and meet departmental KPIs.
- Established project execution SOPs and streamlined cross-functional stakeholder coordination, reducing time-to-delivery for facial-recognition surveillance solutions by 15% and increasing AI project close rate by 8%.
- Modularized customized AI surveillance solutions into common functions and created reusable PM templates, enabling junior PMs to boost throughput; shortened average planning time and raised bid-winning rate by 20%.

#### Project Manager

Nov 2018 - Oct 2020

- Managed end-to-end delivery of customized AI surveillance solutions across domestic and international markets.
- Owned project initiation and planning, including budget forecasting, scope definition, schedule creation (Gantt charts), WBS development, and resource allocation, to align delivery with client expectations and constraints.
- Monitored and controlled projects through stakeholder coordination, timeline tracking, and change management, standardizing processes for repeatable delivery and driving consistent on-time, on-budget outcomes.

### Hitachi Chemical Energy Technology Co., Ltd.

Taipei, Taiwan

#### Project Management Coordinator at Product Department

Nov 2017 - Oct 2018

- Oversaw New Product Development during early mass-production pilots, reporting risks and readiness to senior PMs.
- Supported requirements gathering, market and competitive analysis, engineering change control (ECO/ECR), and product lifecycle management (PLM) to drive production readiness and go-to-market.

## EDUCATION

### Alpha Camp

Taipei, Taiwan

- Full Stack Web Development Program (Specialized in Front-end)

May 2021 - Jan 2022

### National Tsing Hua University

Hsinchu, Taiwan

- Master of Science in Biotechnology
- Bachelor of Science in Chemical Engineering

Sep 2015 - Aug 2017

Sep 2011 - Jul 2015
